

Browning Command Ops Elite

The Command Ops Elite series has been updated to deliver a big performance in a small package while continuing to ensure the best battery life in trail cameras. 18MP picture resolution provides the very best quality pictures of your game, day or night, and has fast 0.3 second trigger speeds that lets you capture virtually anything that steps out in front of your camera. The Command Ops Elite series also features 720p HD video with sound to capture great video content. With all of that said, it is easy to see why the Command Ops series of trail cameras from Browning continues to be widely considered the best of the entry level cameras on the market.
