

Browning Spec Ops Elite – HP5

The New Spec Ops Elite HP5 features high quality 24 MP pictures. The invisible (Black Flash), adjustable power “Night Vision” IR illumination reaches out to 100 ft., thanks to the new RADIANT 5 Night Illumination Technology. The new Spec Ops Elite HP5 camera also features an incredible 1920 x 1080 Full HD video processor, capable of producing stunning video footage @ 60 frames per second.

Additional features include a 2” colour viewing screen and Smart IR Video, which continues to record video footage while movement is in front of the camera, super quick 0.1-0.7 adjustable trigger speed. SD Card Management options allow you to overwrite older images on the SD card if the memory is full. Finally, with the ability to work with up to 512 GB SDXC memory cards, the Spec Ops Elite HP5 is perfect for a security application as well as monitoring game animals.
